## PROFESSIONAL EXPERIENCE

### Full Stack Developer - Intern, EHC Groupe

05/2025 – 08/2025 | Meknès

During my internship at EHC Group, I contributed to the design and development of a web application, working on both the **Backend (Spring Boot)** and **Frontend (React.js)**. I also participated in the Design of **class diagrams** and **use case diagrams**. This experience strengthened my full-stack development skills and my ability to collaborate effectively using **Jira** and **GitHub**.

## EDUCATION

### Web development, Youcode

2024 – 2026 | Nador, Morocco

### Bachelor in Software Engineering, Zaporizhzhia National University

2018 – 2024 | Zaporizhzhia, Ukraine

### software development, Ecole Supérieure de Technologie

2017 – 2018 | Meknès, Morocco

## PROJECTS

### Supplier Management System - FullStack Application

10/2025 – 12/2025

- REST API development : **Java 17, Spring Boot**
- Authentication & RBAC : **Spring Security, JWT, OAuth2**
- Frontend SPA development : **Angular, TypeScript**
- State management : **NgRx (Store, Effects, Actions, Reducers)**
- Reactive API integration : **RxJS, Angular HttpClient**
- Login & form validation : **Angular Reactive Forms**
- Unit & integration testing : **JUnit, Mockito**
- DevOps automation & deployment pipeline : **Jenkins, SonarQube, Docker**

### Blood Bank - Web Application for Blood Donation Management

03/2025 – 05/2025

- Full-stack web application development (MVC) : **Laravel, PHP**
- Database modeling & ORM integration : **Eloquent ORM, MySQL**
- Authentication & route protection : **Laravel Breeze, Middleware**
